- Sustainability
- Business and Application Architecture

With over two decades of experience, I am an accomplished Transformation Leader adept at orchestrating successful business and IT change across diverse domains—ERP, Cloud, Sustainability, and AI. My expertise lies in meticulously planning and executing large-scale transformation programs, seamlessly bridging the gap between business objectives and cutting-edge technology.

Key Strengths:

- **Strategic Vision:** I navigate complex landscapes by aligning transformation initiatives with corporate strategy, ensuring a cohesive and purpose-driven approach.
- **Stakeholder Engagement:** My ability to build robust relationships with stakeholders—both internal and external—fuels collaboration and drives results.
- **Cross-Functional Leadership:** I motivate cross-functional teams to achieve tangible business outcomes, leveraging their diverse skills and perspectives.
- **Quality Focus:** My unwavering commitment to delivery quality, cost optimization, and continuous improvement ensures sustainable transformation results.
- **Agility and Precision:** I thrive on delivering excellence with agility, adapting swiftly to changing dynamics while maintaining precision.

Notable Achievements:

- Won Co-op SAP S/4HANA Transformation circa £7 Mn, driving next-generation ERP modernisation at enterprise scale
- Won AO.com WMS Transformation circa £7 Mn, modernising warehouse management to improve fulfilment efficiency and scalability
- Recovered State Bank of India YONO 2.0 from Red to Go-Live for joint venture journeys developed by Hyderabad team. Reviewed, created an action plan and delivered with a team of 250+ members using modern Android & iOS UI app development with Microservices deployed on Istio and Kubernetes clusters
- Led to win Wickes IBM OMS implementation circa TCV £3 M
- Led Co-op's Retail Business Transformation on SAP, re-engineering supply chain processes with accurate forecasting and replenishments
- Successfully delivered Funeral Care's transformation using MS Dynamics, enhancing operational efficiency with better financial controls

June 2018 to June 2020

Senior Delivery Partner Tata Consultancy Services, Liverpool, Merseyside

Key Delivery Account Engagements

Home Office – Disclosure and Barring Services (Siebel CRM and bespoke Java)

Key Activities

- Led the transformation of key delivery account engagements for the Home Office, utilizing Siebel CRM and bespoke Java, by employing advanced program management techniques to convert challenging programs into successful ventures within a global workspace.

- Demonstrated expertise in forming high-velocity teams and structuring product-based organizations, ensuring the delivery of software projects with precision and quality through effective onsite-offshore models.
- Oversaw the governance of change control, effectively communicated with CXO-level stakeholders, and managed service transition processes, establishing robust configuration and release management governance. June 2017 to June 2018

Program Director Tata Consultancy Services, Liverpool, Merseyside Home Office – Disclosure and Barring Services (Siebel CRM and bespoke Java)

Engaged in critical program recovery for the Home Office, addressing multi-vendor issues and an 18-month delay, through strategic leadership and comprehensive program review, ensuring readiness for go-live.

- Conducted root cause analysis (RCA) and developed a corrective action plan for application development, testing, program governance, security, and performance, leading to the identification and scheduling of dependencies with precise go-live dates.
- Directed a diverse team of 300+ (onsite/offshore) associates, successfully deploying 20,000 PDs of work into production within 14 months, and managed program logistics from both onsite and offshore locations, including seven trips to Liverpool to resolve onsite dependencies

March 2004 to June 2017
